

Promat Australia now supplying 40mm Rockwool Blanket for insulation on services

Promat now have stock and will be supplying a 40mm thick foil backed rock wool blanket for use with a number of our approvals.

The PROMASEAL® SupaWrap 40 complies with our approval report from Exova numbered EWFA 25948-03. The wrap is used in conjunction with our PROMASEAL® range of fire stopping products to achieve an FRL value of up to -/120/120.

Services approved include copper, steel and brass pipes & cable trays with electrical and communications cables. These are wrapped with PROMASEAL® SupaWrap 40 for a length of 600mm either side of the separating barrier.

The PROMASEAL® SupaWrap 40 & Fibertex 450 are both manufactured as a min 80kg/m³ foil faced Rockwool blanket, with a max service temperature of 450C and as such are like for like product.

Previously Rockwool had to be sourced externally from other companies, now this can be sourced from us along with all your other fire stopping needs.

Product information:

Code: 4059967 - PROMASEAL® SupaWrap 40 – 4m x 1.2m x 40mm roll - \$267.80+ account discount applies

Please contact Promat Australia for further information. 1800 PROMAT (776 628) or enquiries@promat.com.au
