---

### DESCRIPTION OF BUILDING PRODUCT

Comfortech® supplies a range of trims and other finishing products for use with plasterboard internal wall linings. Uses include architraves, skirting. These products are manufactured by [Studco Building Systems Pty Ltd](#).

Studco is an Australian company that was founded in 1986. It supplies a range of roll-forming and other building products in addition to those supplied by [Comfortech®](#).

The products covered by this BPIR do not contribute to the building code compliance of a building but despite this, Comfortech® have elected to prepare a BPIR declaration.

The Studco products are manufactured from galvanised steel, supplied with a factory applied coating ready for a level 5 finish. Where applicable, products are supplied with RokYork Herline hinges (standard) or RokYork Concealed hinges (on request).

Details in respect of the Ezy products supplied by Comfortech® are as follows.

<b>EzyJamb</b> For use within the following parameters, <ul style="list-style-type: none"><li>• door height – 1980, 2340 mm,</li><li>• door width – 410-1000 mm,</li><li>• door thickness – 32-43 mm (up to 60 mm for single rebate jamb).</li></ul> Three profiles supplied, <ul style="list-style-type: none"><li>• classic adjust – 2-piece adjustable jamb,</li><li>• single rebate – single piece rebate,</li><li>• in swing – for use with in-swinging doors.</li></ul>	<b>EzyJamb CavKit</b> Trims and caps the lining around the door penetration. For use within the following parameters, <ul style="list-style-type: none"><li>• door height – 2040, 2340 mm,</li><li>• door width – 720-920 mm,</li><li>• door thickness – 32-43 mm (up to 60 mm for single rebate jamb).</li></ul>
<b>EzyCap</b> Capping for internal walls, balustrades, window openings. It is an alternative for the traditional stop-end finish. Option of a shadowline effect.	<b>EzyReveal</b> Replaces the need for architraves, supplied with pre-punched perforated sides for fixing.
<b>EzyPelmet</b> Creates a window pelmet, installed from below after the ceiling has been installed. A 2-piece system, installed in conjunction with the <a href="#">Studco Concealed Ceiling system</a> .	<b>FastCap</b> Capping in ceiling applications where two sections of ceiling lining need to be finished, such as with the installation of recessed lighting.
<b>Shadowline</b> Customised skirting profiles with a shadowline detail. Manufactured from galvanised steel, with a factory applied coating.	<b>AluBase Skirting</b> A 1-piece extruded aluminium skirting profile. Includes a shadowline detail and concealed system. Must be used in conjunction with <a href="#">EzyJamb Classic Adjust</a> .

## CONTRIBUTION TO BUILDING WORK CODE OBLIGATIONS

EZ Concept finishing systems do not contribute to the code compliance of the building work.

## FOR FURTHER INFORMATION

For design, installation, and maintenance related information, and for information supporting Comfortech® claims, refer to [www.comfortech.co.nz](http://www.comfortech.co.nz).

## RESPONSIBLE PERSON

In accordance with Regulation 8, as the responsible person, I confirm that the information supplied in this declaration is based on information supplied to the company as well as the company's processes and is, therefore, to the best of my knowledge, correct.

I can also confirm that the EZ Concept finishing systems that are referred to in this declaration are not subject to a ban or warning under [s26 of the Building Act](#).
