

FF102

Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

Version: First issued May 2006

Revision Date: 8th May 2017

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product Identifier FF102
1.2	Relevant identified uses of the substance or mixture and uses advised against Expands when heated to act as a fire stop. Main application is in fire protection.
1.3	Details of the supplier of the safety data sheet TENMAT Limited Ashburton Road West Trafford Park Manchester M17 1TD United Kingdom Tel: +44 (0)161 872 2181 Fax: +44 (0)161 872 7596 Email: christopher.clarke@tenmat.com
1.4	Emergency telephone number +44 (0)161 872 2181 +44 (0)161 955 2446 (9 am to 5 pm)

Section 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP/GHS]:

The product is not classified according to CLP regulation.

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008 [CLP/GHS]:

The product has not been classified and marked in accordance with Regulation (EC) No 1272/2008.

Supplemental hazard information (EU):

These products contain low bio-persistence mineral fibres.

These products are not hazardous in the form in which they are shipped by the manufacturer.

FF102

Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

Version: First issued May 2006

Revision Date: 8th May 2017

However, they may produce low levels of fibre-containing dust as a result of downstream activities such as cutting.

These products contain graphite which is not recommended for electrical purposes. Note that dust from these products may compromise the integrity of electrical or electronic equipment.

2.3 Other hazards

Mild mechanical irritation to skin, eyes and upper respiratory system may result from exposure, however any effects are usually temporary.

Section 3: Composition/information on ingredients

These products are made from varying amounts of low bio-persistence mineral fibres, graphite, organic fibres and binders.

Section 4: First Aid Measures

4.1	Description of First Aid Measures General Information: The main hazards arise from downstream activities such as cutting. Following Inhalation: Avoid breathing dust. If breathing difficulties are experienced whilst cutting, remove to fresh air or a ventilated area and seek medical advice. Following Skin Contact: If possible, vacuum excessive dust from clothes as well as skin and hair. Wash and clean contaminated skin with soap and clean water. Clothes should be washed professionally. Following Eye Contact: In case of eye contact, irrigate abundantly with water. Seek medical attention. Following Ingestion: If small quantities are ingested, seek medical advice. Self-Protection for First Aider: Wear suitable personal protective equipment to avoid inhaling dust.
4.2	Most Important Symptoms and Effects, both Acute and Delayed Symptoms:

FF102

Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

TENMAT

Version: First issued May 2006

Revision Date: 8th May 2017

	No symptoms expected. Effects: No effects expected.
4.3	Indication of any Immediate Medical Attention and Special Treatment Needed Notes for Doctor: None required. Special Treatment: None required.

Section 5: Fire-fighting measures

5.1	Extinguishing media Suitable extinguishing media: Not flammable. Unsuitable extinguishing media: Not applicable.
5.2	Special hazards arising from the substance or mixture Hazardous combustion products: None.
5.3	Advice for fire-fighters None required.

Section 6: Accidental release measures

6.1	Personal precautions, protective equipment and emergency procedures For non-emergency personnel: Avoid inhaling dust. Protective equipment: Protective clothing should be provided for operators along with protective equipment shown in Section 8. Emergency procedures:

Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

Version: First issued May 2006

Revision Date: 8th May 2017

	<p>None required.</p> <p>For emergency responders: Avoid inhaling dust.</p> <p>Personal protective equipment: Protective clothing should be provided along with protective equipment shown in section 8.</p>
6.2	<p>Environmental precautions Remove dust by using a vacuum cleaner fitted with 'H' type filters. Where vacuum cleaning is not possible, dampen down dust and collect whilst still damp. Suitable bags are required for disposal.</p> <p>Dust should be packaged into impermeable plastic sacks which should be sealed. Such waste should then be disposed of according to local regulations.</p>
6.3	<p>Methods and materials for containment and cleaning up</p> <p>For containment: Dampen down any dust spillages as soon as possible and collect whilst still damp.</p> <p>For cleaning up: Remove dust using vacuum with 'H' type filters and suitable bags for containment.</p> <p>Dust should be packaged into impermeable plastic sacks which should be sealed. Such waste should then be disposed of according to local regulations.</p>
6.4	<p>Reference to other sections Section 7 for Handling and Storage and Section 8 for Protective Equipment.</p>

Section 7: Handling and storage

7.1	<p>Precautions for safe handling</p> <p>Protective measures: No special protective measures are normally required.</p> <p>Advice on safe handling: Normal safe precautions for handling can be employed.</p> <p>Fire prevention: Products are not flammable.</p> <p>Aerosol and dust generation prevention: Small amounts of dust may be generated if products are allowed to abrade against each other.</p>

Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

Version: First issued May 2006

Revision Date: 8th May 2017

	<p>Environmental precautions: No special precautions are required.</p> <p>Advice on general occupational hygiene: Wear protective clothing.</p>
7.2	<p>Conditions for safe storage, including any incompatibilities</p> <p>Technical measures and storage conditions: Both un-cut and cut products should be packed to prevent movement and abrasion during transit and to prevent absorption of water.</p> <p>Otherwise normal safe precautions for storage can be used.</p> <p>To avoid damage and distortion, store on a smooth level surface, in a fully supported position off the ground and in a dry place.</p> <p>Packaging materials: Card cartons.</p> <p>Requirements for storage rooms and vessels: Dry location.</p> <p>Hints on storage assembly: FF102 is not considered to be a dense material but care should be taken not to exceed safe working loads for equipment and storage shelves or racks.</p> <p>Storage class: N/A</p> <p>Materials to avoid: No special requirements.</p> <p>Further information on storage conditions: N/A</p>
7.3	<p>Specific end uses</p> <p>Recommendations: N/A</p> <p>Specific end uses: See references to dust hazards during cutting, Section 4.</p>

Section 8: Exposure controls/personal protection

FF102

Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

Version: First issued May 2006

Revision Date: 8th May 2017

8.1	Control Parameters Reference should be made to local and country-specific occupational exposure limits for dust and low bio-persistence mineral fibres. UK monitoring methods can be found as follows: MDHS 59 – Machine-made fibres airborne number concentration and classification by phase contrast light microscopy. NIOSH 0500 – Particulates not otherwise regulated, total. NIOSH 0600 – Particulates not otherwise regulated, respirable. NIOSH 7400 – Asbestos and other fibres by PCM.
8.2	Exposure Controls Fit and use appropriate local exhaust ventilation systems for cutting and machining operations. Use appropriate personal protective equipment to avoid dust inhalation. Maintain a clean workspace using a vacuum cleaner. MEL/OES Low bio-persistence mineral fibres 5 mg/m ³ 8 hr TWA (MEL)

Section 9: Physical and chemical properties

9.1 Information on Basic Physical and Chemical Properties

Physical State	Solid material
Appearance	Rigid sheet
Colour	Grey
Odour	N/A
Odour threshold	N/A
pH	N/A
Melting/Freezing Point	N/A but see Tenmat Technical Brochure for maximum working temperatures.
Boiling point	N/A
Flash point	N/A
Evaporation rate	N/A
Flammability (solid, gas)	N/A
Upper/lower flammability or explosive limits	N/A
Upper explosive limit	N/A
Lower explosive limit	N/A
Vapour pressure	N/A
Vapour density	N/A
Relative density	900 kg/m ³

FF102

Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

Version: First issued May 2006

Revision Date: 8th May 2017

Solubility	Not soluble in water.
Partition coefficient n-octanol/water	N/A
Auto-ignition temperature	N/A
Decomposition temperature	N/A
Dynamic viscosity	N/A
Kinematic viscosity	N/A
Explosive properties	N/A
Oxidising properties	N/A

Section 10: Stability and Reactivity

10.1	Reactivity Stable and non-reactive.
10.2	Chemical Stability Stable and inert.
10.3	Possibility of Hazardous Reaction None.
10.4	Conditions to Avoid None.
10.5	Incompatible Materials None.
10.6	Hazardous Decomposition Products None.

Section 11: Toxicological Information

11.1 Information on Toxicological Effects

Exposure is mainly due to low levels of dusts generated during downstream activities such as cutting.

Low bio-persistence mineral fibres as used in these products have been developed to be quickly and effectively cleared from lung tissues.

Acute Effects

Acute Inhalation Toxicity	Nose and throat irritation.
Skin Irritation	Mild irritation.

FF102

Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

Version: First issued May 2006

Revision Date: 8th May 2017

Eye Irritation	Irritation.
-----------------------	-------------

Chronic Effects

Respiratory or Skin Sensitisation	Irritation of both the respiratory tract and skin is by mechanical means and is not the result of an allergic reaction or chemical damage.
--	--

Section 12: Ecological Information

12.1	Toxicity FF102 is insoluble in water and remains stable over time. The major constituents are similar in their chemical composition to naturally occurring materials and minerals.
12.2	Persistence and Degradability Not established.
12.3	Bio-accumulative Potential Not established.
12.4	Mobility in Soil No information available.
12.5	Results of PBT and vPvB Assessment The product do not contain substances that are considered as either PBT or vPvB.
12.6	Other Adverse Effects No other additional information available.

Section 13: Disposal Considerations

13.1	Waste Treatment Methods Product/Packaging Disposal: Packaging can be cleaned and recycled. Waste Treatment Options: Waste from the product may be disposed of in landfill according to local regulations.
-------------	--

Section 14: Transport Information

FF102

Safety Data Sheet

according to Regulation (EC) No 1907/2006 (REACH)

Version: First issued May 2006

Revision Date: 8th May 2017

14.1	UN Number Product is not dangerous according to current transport regulations.
14.2	UN Proper Shipping Name N/A
14.3	Transport Hazard Class(es) N/A
14.4	Packing Group N/A
14.5	Environmental Hazards N/A
14.6	Special Precautions for User N/A
14.7	Transport in Bulk According to Annex II of MARPOL 73/78 and the IBC Code N/A

Section 15: Regulatory Information

15.1	Safety, Health and Environmental Regulations/Legislation Specific for the Substance or Mixture EU Regulations Regulation (EC) No 1272/2008, 20 th January 2009, on Classification, Labelling and Packaging of Substances and Mixtures (OJL 353). The 7 th Adaption of Technical Progress (ATP) to Regulation (EC) No 1272/2008 was published on 15 th July 2015. Worker Protection In accordance with the following directives and their amendments: Council Directive 89/391/EEC, 12 th June 1989 on the Introduction of measures to encourage improvements in the health and safety of workers at work. Council Directive 98/24/EC, 7 th April 1998 on the Protection of workers from the risks related to chemical agents at work.
15.2	Chemical Safety Assessment Available on request.
