Clean lines, flush finish. The complete solution for modern interiors.

As manufacturers of the world renowned EzyJamb door jamb systems, EZ Concept's openings and finishings products produce minimalistic flush finishes by eliminating trims and traditional timber systems for commercial, residential and industrial interiors.

Explore our range of opening and finishing products.

EzyJamb

EZC | Classic Adjust Door Frame

EzyJamb® Classic Adjust EZC is a split-type adjustable door jamb manufactured from cold rolled steel to produce a strong and secure assembly.

The EzyJamb EZC, comes with perforated sides for flush finishing which produces a contemporary flush finish door jamb with clean lines and inconspicuous detail.

RocYork RY-60 Concealed Door Hinge

Concealed hinges available in black, white, satin chrome or stainless steel

RocYork

Concealed Door Hinges

Make your door hinges disappear with the all new RocYork® concealed door hinge from EZ Concept.

This revolutionary architectural breakthrough will allow uninterrupted clean lines around internal doors for the ultimate square-set interior. Available in Satin Chrome and Black.

No visible barrel or in

3 Axis Adjustment

Usable with EZC and SRC

Liftoff hinges also available in black

RocYork

Lift-Off Hinges

For greater flexibility, the RocYork Lift-off hinges are ideal for doors that require a service gap, such as apartment bathrooms, as they can quickly be lifted and removed without the need for unscrewing the hinge; saving time in an emergency.

Herline hinges also available in black

RocYork

Herline Hinges

Specially designed and manufactured to partner with the EzyJamb® door jamb systems, the loose pin RocYork® Herline Hinges are surface mounted with self-tapping screws, making them easy to install.

Available in Satin Chrome or Black.

Cavkit Trim kit with SlideSet Pocket Door

CavKit

Trims to suit cavity sliders

CavKit is a flush finish system that trims and caps the plasterboard edges around the door penetration, to create a cavity slider that can be hidden when open and provide privacy when closed, without the look of bulky architraves. Designed to perfectly match the EzyJamb door jamb system for swing doors, the CavKit pocket door trim system allows you to create a consistent flush look across all of your interior doors.

Ready to Paint

Rebated or flat end cap

Optional Full Height Cavkit System

SlideSet

The Flush Finish Cavity Slider Solution

The SlideSet Flush Finish Cavity Slider System has been designed to provide the absolute minimum of detail giving the ability to completely conceal the door and give the impression that the door does not exist when open, and complete privacy when closed, adding a contemporary and architectural dimension to any project.

AccessDor

Smooth Transitions From Wall to Access Panel

Available as standard or custom solutions, AccessDor Access Panels are flush finished to the wall, with only a 3mm reveal between the door and wall and a discrete cam latch to inconspicuously blend into its surroundings.

Available in standard sizes or bespoke solutions; AccessDor can be suited to your specification. Combine your AccessDor with concealed hinges and latches for the complete flush finish look.

EzyPelmet Recessed Window Pelmet

EzyPelmet

Two-Piece Pelmet System

EzyPelmet is a two piece, pre-finished cold-rolled steel section which provides a fast, economical and prestigious solution for creating recessed window pelmets in plasterboard ceilings.

It provides a simple and discrete transition between the interior ceiling and external windows, curtain wall facades or the building structure.

EzyCap

Window and Wall End Capping

Cased openings or internal wall ends are made easy with EzyCap.

Save time on site with this durable solution that simply slides onto the end of the plasterboard to cap the wall end and doesn't require preparation to paint in with the rest of the wall.

Wear Resistant

Ready to Paint

Applications for stair balustrades

FastCap

Custom rebates and capping

Inspired ceiling designs command attention using FastCap; this innovative solution easily inserts between two sections of plasterboard to make light work of difficult rebates, plasterboard profiles and large oversized shadowlines. Recessing feature lighting or hardware, custom finishing and capping of plasterboard is made easy with the FastCap range of custom made finishing sections.

FastCap Rebates with lighting installed

EzyReveal

Window Reveals

Create a premium architrave-free, square-set interior finish with EzyReveal®; the steel window reveal that eliminates the need for architraves.

Using a metal reveal is more durable than timber, as it doesn't warp or crack over time, especially in sun-exposed areas.

Delivery

EZ Concept are committed to providing excellent customer service to our clients to help you achieve flush finished interiors. We understand the need for tight delivery windows on site and are happy to work around site limitations to ensure your products arrive when required.

Our products are made to order and a typical lead time for delivery is five (5) working days. However, longer lead times may apply in some cases, so please confirm exact lead time with Studco prior to placing your order.

An expedited service is available on request for urgent orders. An extra charge per product is applicable to expedited orders. Expedition of EzyJamb, CavKit and SlideSet orders is subject to operational requirements. Always confirm exact lead time with Studco prior to placing your order.

Installation

All EZ Concept products are designed for quick and simple installation on site. Installation instructions are available on our website at www.ezconcept.com.au/installation as well as installation videos for EzyJamb Ezc frames and RocYork Concealed Hinges.

If you require further assistance with installation, please call the EZ Concept team for technical advice on 1300 399 526.

For Sales and Technical Enquiries, please contact EZ Concept Australia.
