

LINEAR 5

- Perforated or Plain -

Linear 5 is a most popular style in our open linear range. Linear 5 combines clean sharp lines within a classical, balanced visual.

Available in aluminium or Colorbond Zinalume in plain or three perforation options, band, fully perforated or bridge. Ideal for use in education, institutional and public buildings it has the aesthetics and acoustic performance to enhance these environments.

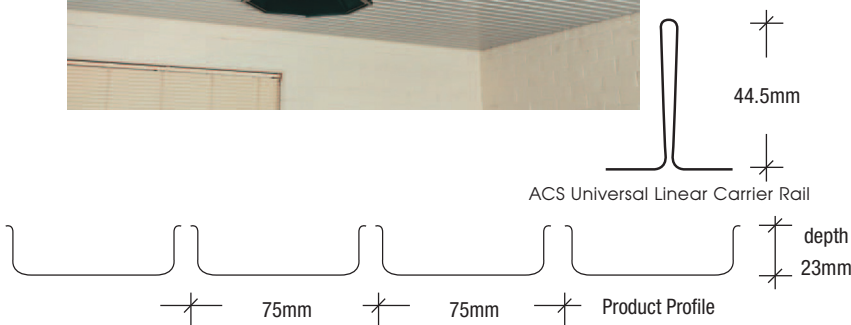

Linear 5 has continued as the popular choice for use in Educational and Institutional buildings across Australia for over 35 years.

FORMS

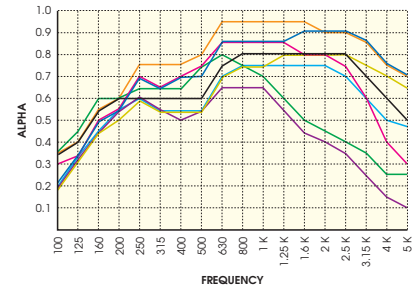

- Round Hole Perforated or Plain -

Forms offers an added dimension in depth through a 22mm deep face panel within a 75mm open style module that delivers excellent acoustic outcomes. Forms provides a bold distinctive profiled face panel that is available in plain and two perforation types.

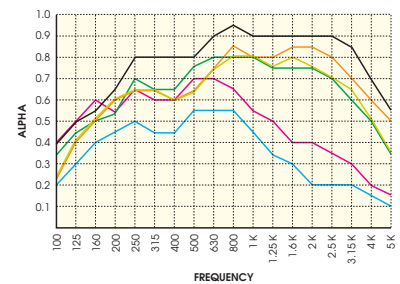

CEILING FOR THE DISCERNING DESIGNER

Linear 5

- 1 NRC = 0.65 BAND PERFORATED - 25MM BTF
- 2 NRC = 0.75 BAND PERFORATED - 50MM BTF
- 3 NRC = 0.55 UNPERFORATED - 25MM BTF
- 4 NRC = 0.65 UNPERFORATED - 50MM BTF
- 5 NRC = 0.70 BRIDGE PERFORATED - 25MM BTF
- 6 NRC = 0.85 BRIDGE PERFORATED - 50MM BTF
- 7 NRC = 0.65 FULL PERFORATION - 25MM BTF
- 8 NRC = 0.80 FULL PERFORATION - 50MM BTF
