Security Series Access Panels

Data Sheet

Model: **LSA (Low Risk Area Access Panel)**

The Como Building Products Low Security Access Panels are specifically designed for use in environments that require an increased level of security. Designed and manufactured in Australia, the LSA is ideal for use within buildings such as hospitals, secure administration buildings, Courts of Law or other areas that are considered a low risk of interference but require a project wide master key system.

Product profile

Manufacturing origin: Como Building Products – designed and made In Australia

Project use: ceilings and walls

Available sizes (mm)

- LSA600: 600 x 600mm
- LSA450: 450 x 450mm
